

Subaru Map Update Instructions

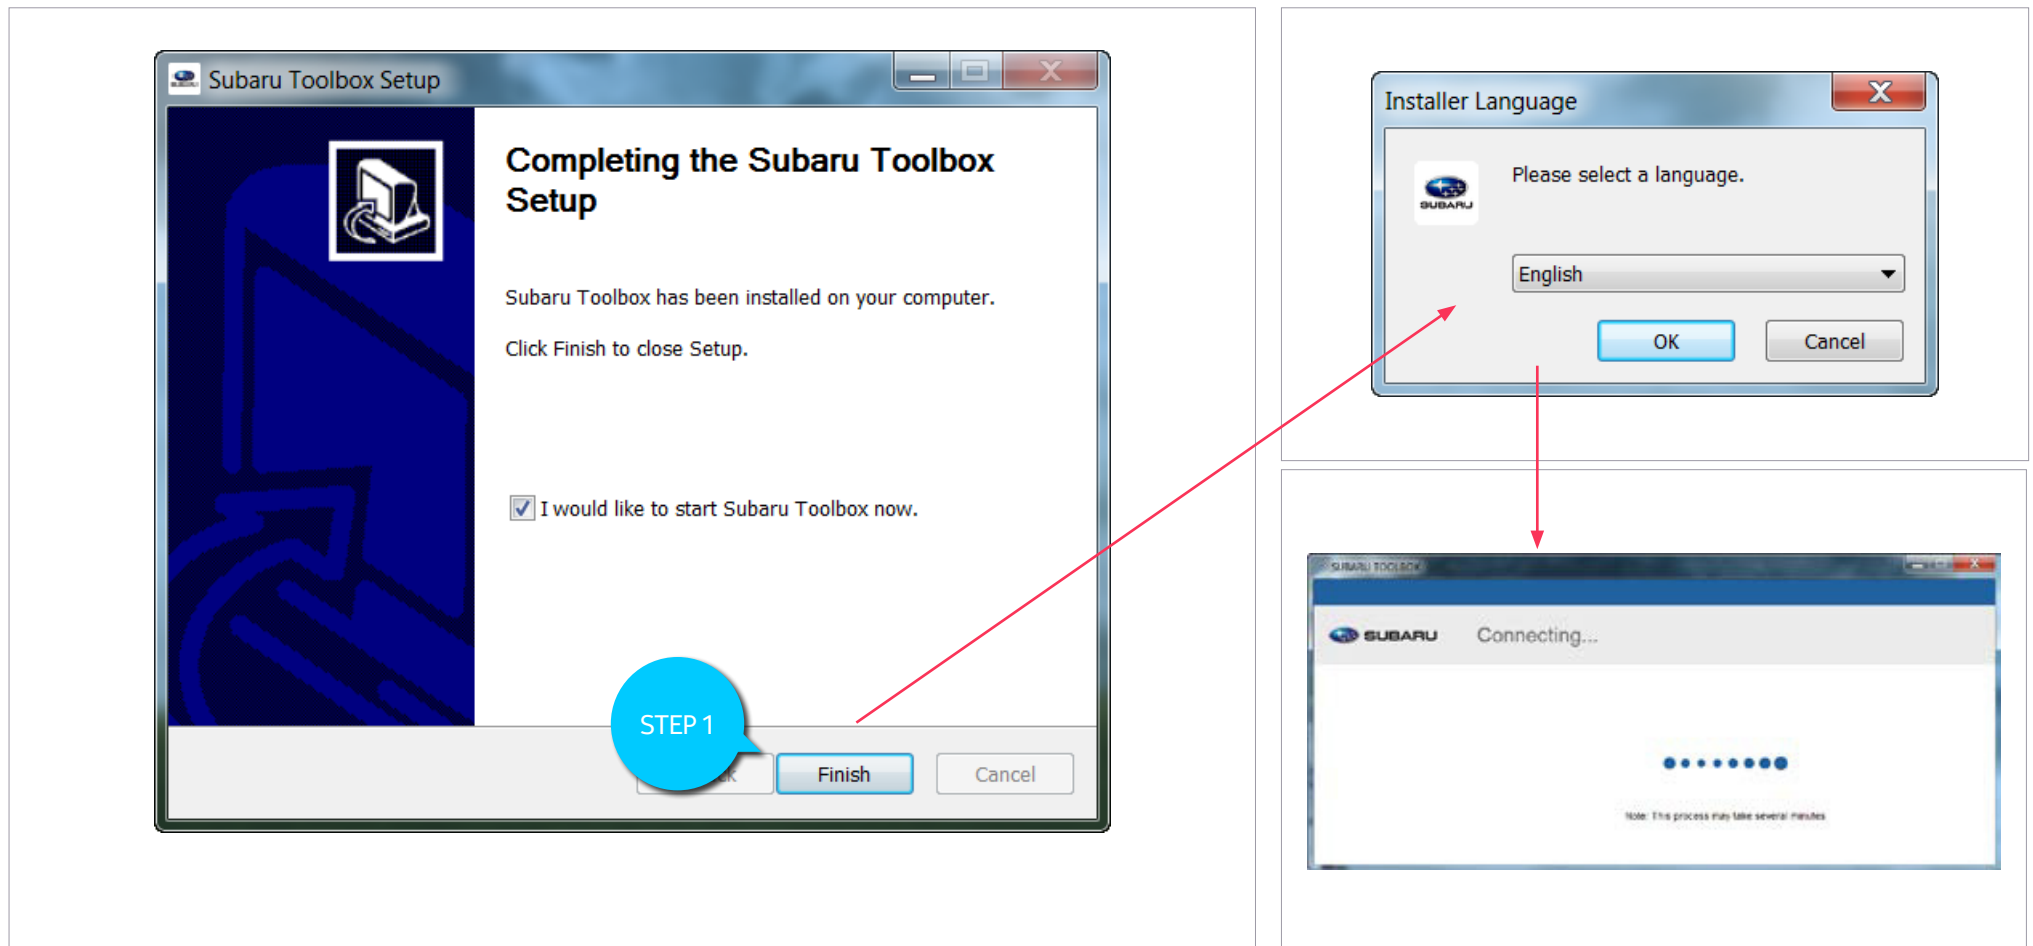

Version 2.0 - 2016

Step 1. Download And Install The Toolbox

Ensure you have downloaded the appropriate Saburu Map Update Toolbox from www.subarumapupdates.com.au or www.subarumapupdates.co.nz

Upon successful installation the Toolbox can be started.

Steps 2 & 3. Starting The Tool Box

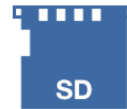

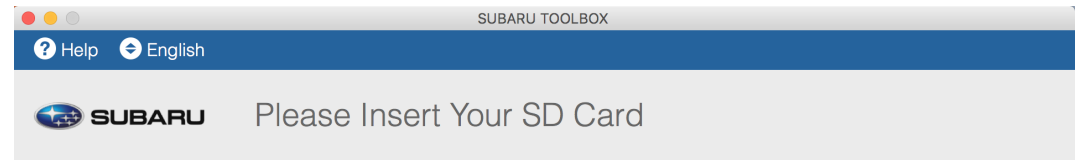

When the Toolbox is started a valid Subaru SD Card must be inserted.

Please ensure your SD Card is in the **unlocked position**. You will not be able to update the map if the SD Card is locked.

STEP 2

The Subaru Toolbox is an application that allows you to update your Subaru SD card with the latest map update files available.

Before using the Subaru Toolbox:

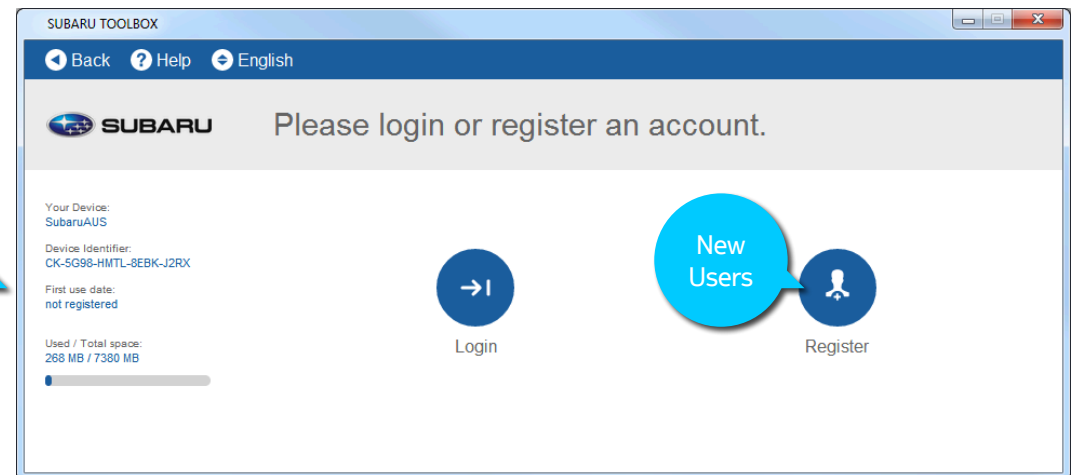

- Navigation must have been launched in your vehicle
- You must have a reliable internet connection to your computer throughout the entire update process
- Your Subaru SD card provided with your vehicle must be inserted into your computer's high-speed SD card reader (or an external SDHC compatible card reader plugged into your computer's USB port)

When you insert your Subaru SD Card the following **login/register** screen appears.

Select **“Register”** (if you are a first-time user).

If you are already registered, after entering your login details you will be automatically redirected to the **Toolbox home screen**.

STEP 3

Steps 4 & 5. New Registration

To **register as a new user** follow the step-by-step instructions within the registration process.

STEP 4

SUBARU Registration - Add Email

Your Device: SubaruAUS

Device Identifier: CK-5G98-HMTL-8EBK-J2RX

First use date: not registered

Used / Total space: 262 MB / 7380 MB

Please enter your email address below!

Email address

CANCEL NEXT

After you have fully completed the registration process you will receive a **confirmation e-mail**.

STEP 5

SUBARU Registration confirmed

Thank you! Your registration has been successfully confirmed.

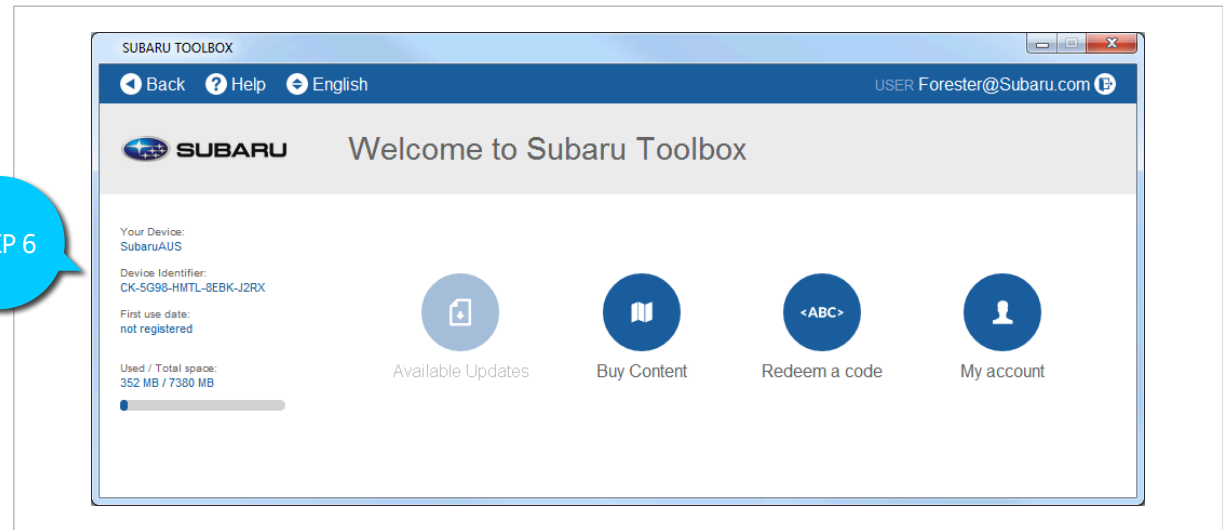

Step 6. Tool Box Home Screen

Please Note: The “Available Updates” button is only active when you have eligible rights to install content that is available for you, and has not been previously installed.

The “Buy Content” button is always active, however if you already have bought and installed content, you cannot buy and install again. The “buy” button will be inactive in these cases.

STEP 6

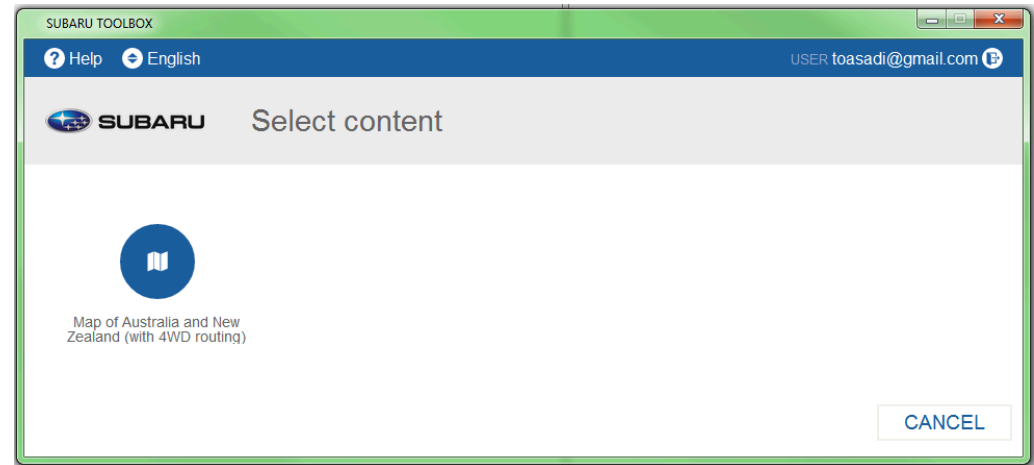

Steps 7 & 8. Buying Content

If you clicked on “Buy Content”, select the map of your choice.

Please Note: The Toolbox will offer only those maps that are available for your device.

STEP 7

After selecting the map, you will be navigated to the page opposite where you can start the purchase by clicking on “Buy – xxx AUD” button.

STEP 8

Step 9 & 10. Check Out

On purchasing your new map you will be taken to the checkout page.

STEP 9

The screenshot shows the 'Checkout' page of 'The Official Subaru Map Update Site'. The page features the Subaru logo and tagline 'Confidence in Motion'. On the left, there is a 'Questions' section with contact information and a 'Payment' section stating that the secure ordering process accepts all major credit cards (Visa, MasterCard, Amex). The main content area is titled 'Checkout' and includes an 'Order Summary' section showing 'Map of Australia and New Zealand (with 4WD routing) - Single time update - Qty 1'. A 'Return to cart' link is present. At the bottom, there is a 'Checkout' button.

Choose your payment method (card type) and accept the 'Terms of Use' by ticking the box. Then click "Calculate Total"

STEP 10

The screenshot shows the payment method selection page of 'The Official Subaru Map Update Site'. The page displays the user's email address (redacted) and phone number (123456789). Under the 'Payment Method' section, there are three radio button options: Visa, MasterCard, and Amex. Below this, there is a section for 'Export Control Terms and Terms of Use' with two checkboxes: one for accepting the terms (which is checked) and one for keeping the user informed of new products and services. At the bottom, there is a prominent blue button labeled 'CALCULATE TOTAL' which is highlighted with a red border.

Step 11 & 12. Check Your Purchase

Check your total purchase value on this screen.

STEP 11

The Official Subaru Map Update Site

Cart total:	A\$ 169.00
Promo applied:	A\$ 0.00
Shipping and Handling:	A\$ 0.00
Subtotal:	A\$ 169.00
Local sales tax:	A\$ 0.00
Total	A\$ 169.00

Payment Method

Brand

Enter your card data (card number, expiry date, card holder name and CVV code) and click on “Pay Now” button.

Step 13 & 14. Obtain Your Purchase

After successful purchase you will be re-directed to the following screen. Click on **“Download”** to get the purchased product.

Please Note: If you click on the **“Later”** button, you will be navigated back to the **Main Toolbox Home screen** and the **“Available Update”** button will be active.

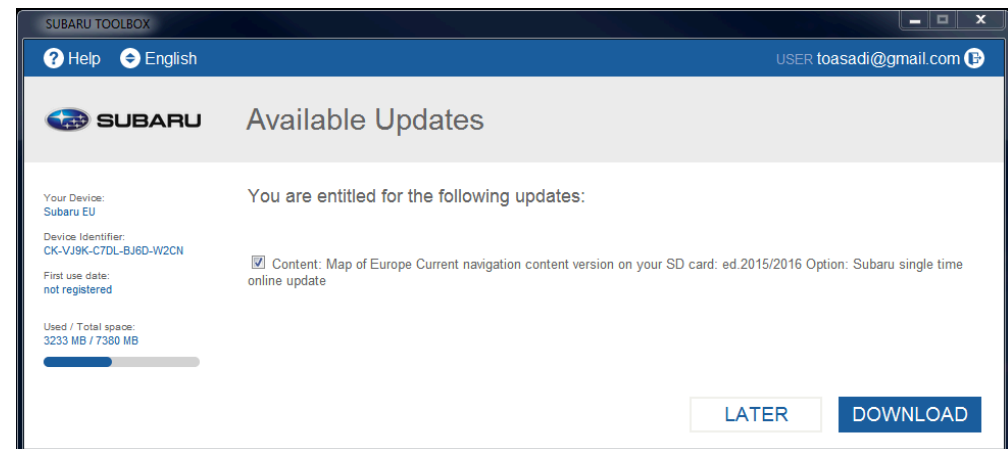

STEP 13

When you have eligible rights to install content that's available for you without purchasing, you are navigated directly to the screen opposite. Click on **“Download”** to get the product.

Please Note: If you click on the **“Later”** button, you will be navigated back to the Main Tool Box Home screen and the **“Available Update”** button will be active.

STEP 14

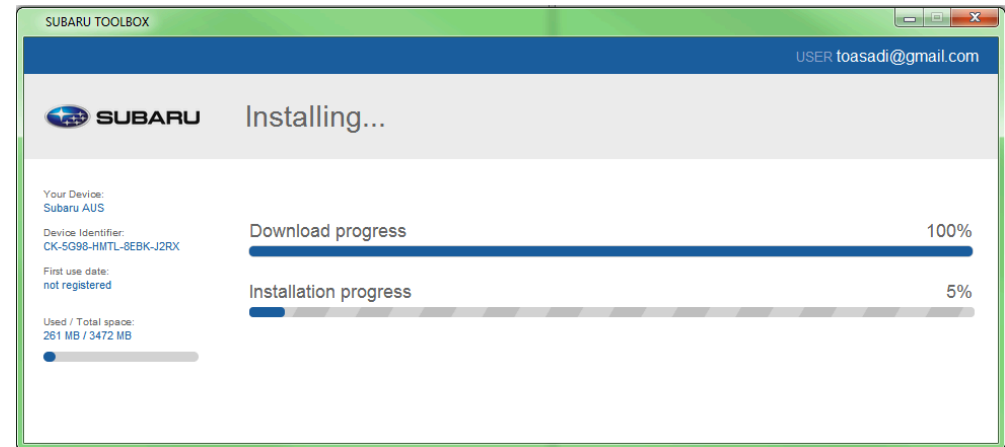

Step 15 & 16. Install Your Map Update

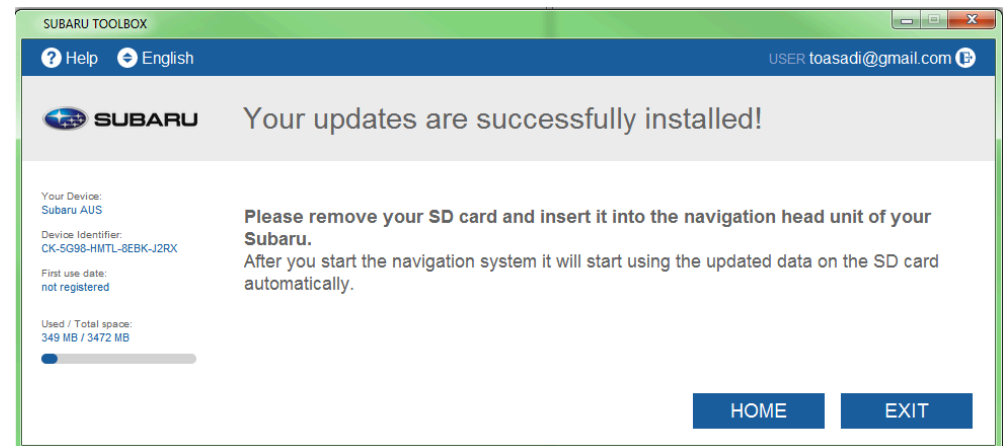

Upon clicking “**Download**” your installation will start immediately. On the progress bar you can follow the progress of the installation. This step may take longer depending on your internet connection speed.

STEP 15

You will be informed when the installation is finished. Click on the ‘**Exit**’ button, remove your SD Card from your PC, go back to your car and insert your updated SD Card to the Head Unit. The navigation system will automatically start using the updated data when switched on.

STEP 16

And Lastly. Install Your New Map Update

Please Note: The Subaru Toolbox will not let you buy the same map update twice. You will receive a warning note if you try to do that accidentally and the 'Buy' button will also be deactivated.
